

ENGINEERING SERVICES

PPC ENGINEERING™ IS A TEXAS REGISTERED PROFESSIONAL ENGINEERING FIRM SPECIALIZING IN THE PROBLEMS ENCOUNTERED WHEN MOVING FLUIDS.

From assisting in the evaluation of new designs to ensure smooth, safe, and reliable operation to collecting field data to identify problems, PPC Engineer can help.

SERVICES:

- **Pulsation/Vibration (Acoustic) Studies** - PPC Engineering performs four different types of studies to evaluate compressor and pump systems.
- **Site Surveys** - On-site performance and vibration testing and evaluation. Site surveys involve the collection and analysis of high-speed data to determine the root cause of operational problems or to evaluate equipment performance compared to defined standards.
- **Other Related Service** - Structural Analysis, Non-Linear Finite Element Study. Fluid Flow Studies, Transient Compressible Multi-Phase Fluid Studies.

ALL ENGINEERING SERVICES PERFORMED BY PPC ENGINEERING, A TEXAS REGISTERED ENGINEERING FIRM F-195111.
